

# ***Wonder Women Filmmakers: Get Busy Creating!***

## **● Questions & Action Items For Filmmaking Inspiration:**

- In your all time favorite movie, what one moment do you wish they had done differently? Is there one scene you'd like to see played out in another way?
  - What's a movie/book that has impacted you deeply?
  - Why? What about it affected you?
  - What is a story that has not been told or has not been told in a way that you think is important?
  - Why is THIS story important to you?
  - Write the story or scene out in a couple of pages.
  - From your story or scene, make 4 lists - then start checking things off your to do list!
    - Locations the story takes place
    - People (actors) needed to tell the story
    - Props & costumes needed to tell the story
    - People (crew) needed to tell the story behind the camera
  - List 3 people you know that have talents that you don't have.
  - List 3-5 people you like spending time with, that make you feel energized (bonus if they are also on the list above!)
  - List assets you already have that you can use to film! (HD Camera on your phone, the place you live can be a location, the park near your house, the place you work? Do you already have some great cosplay made? Do you already have great props you can use? Do you know any actors?)
- Now that we can see the stories you want to tell and how many resources you already have at your fingertips, GO MAKE A MOVIE!
